Welcome to Aarau

Dear colleagues and friends,

We are delighted to welcome you all to the 2024 Annual Meeting of the Swiss Society of Neonatology in Aarau.

This year's edition focuses on Family Integrated Care (FiCare) and migrational health. Ficare and Migrational health complement each other as they both have the well-being of the neonates and their families in the centre, whether the families are local or culturally differing migration families. For both themes we have invited esteemed expert speakers. The program targets all persons involved in neonatal care including parents, nurses, allied health workers, psychologists, researchers, medical doctors and many more.

With our program we put our neonatal patients and their families in the center of neonatal care and our society.

We will provide a platform for networking and we are expecting a large number of attendees for a lively exchange.

Have a look at the program with the different interesting lectures!

For the organizing committee 2024

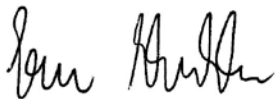

Prof. Cornelia Hagmann, Zurich

Prof. Riccardo Pfister, Geneva

For the Swiss Society of Neonatology

Prof. Sven Schulzke
President

Dr. Philipp Meyer
President-elect
